

SAAD ALI

Full Stack Developer

Lahore, Pakistan | +92 316 4163429 | Saadali6991550@gmail.com | portfolio-opr5.vercel.app | linkedin.com/in/saadali77 | github.com/saadali-77

PROFESSIONAL SUMMARY

Full Stack Developer with over **2 years** of experience building and deploying scalable web applications using MySQL, Express.js, React.js, and Node.js. Skilled in designing secure REST APIs, implementing JWT authentication and role-based access control, and managing complex application state with Redux Toolkit. Improved frontend load times by **30%** through lazy loading, code splitting, and other performance optimization techniques. Proven ability to collaborate effectively in Agile teams to deliver high-quality software on schedule.

CORE SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, Next.js, Node.js, Express.js, NestJS
- **Frontend:** HTML5, CSS3, Tailwind CSS, ShadCN, Redux Toolkit, React Router, React Hook Form
- **Backend & Database:** REST API Development, GraphQL, MongoDB, PostgreSQL, MySQL, JWT Authentication, Role-Based Access Control (RBAC)
- **Tools & Practices:** Git, GitHub, Postman, Axios

WORK EXPERIENCE

Full Stack Developer — CipherNest Technologies

Aug 2024 – Present

Lahore, Pakistan

- Built and deployed **4+** full-stack web applications using React.js, Next.js, Node.js, and NestJS, with PostgreSQL, MySQL, and MongoDB for data storage, supporting core business workflows.
- Optimized PostgreSQL and MySQL databases via indexing and query refactoring, cutting slow query execution time by **40%** and reducing server load.
- Architected and optimized **20+** REST and GraphQL APIs, reducing average response time from **900ms to 450ms** (50% improvement) through caching and query restructuring.
- Resolved **50+** production bugs and backend performance issues, reducing API error rate from **5% to under 1%**.
- Adopted the use of TypeScript in the codebase, decreasing type errors during runtime by **60%**.

RECENT PROJECTS

Hospital Management System — Full Stack Developer

Nov 2025 – Mar 2026

- Built a Hospital Management System with NestJS and React.js to manage **1,500+** patient profiles, medical records, and doctor assignments.
- Built and optimized **30+** REST APIs connected to PostgreSQL, handling patient registration, appointments, and administrative records.
- Created **10+** reusable backend services, cutting down repeated code and making the system easier to maintain.

GreenMart — Full Stack Developer

Jan 2026 – Mar 2026

- Built a full-stack e-commerce platform with **50+** products across **5+ categories**, with product listing, filtering, cart, and checkout.
- Set up global state management with Redux Toolkit, including a cart that persists across sessions.
- Built **10+** API endpoints for product listing, category filtering, checkout, and order management.
- Built an admin portal for managing products, categories, and orders using reusable Next.js components.

DevTinder — Full Stack Developer

Jan 2026 – Mar 2026

- Built a developer-focused social networking app for finding and connecting with other developers.
- Built the React frontend and a Node.js/Express.js backend with **15+** REST endpoints, using JWT authentication and MongoDB for user data and sessions.
- Tech: React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS, DaisyUI, JWT, REST API, Git, Postman.

EDUCATION

BS in Information Technology

2020 – 2024

University of Education, Lahore
